TO: THE HUMAN RESOURCES MANAGER

SUBJECT: APPLICATION FOR AN INTERNSHIP OPPORTUNITY

I am writing to express my strong interest in an internship opportunity with your organization. As a dedicated ICT Diploma undergraduate at Nairobi National Polytechnic, I am eager to apply my academic foundation and passion for technology to real-world technical challenges. I am highly motivated to bring my problem-solving skills to a dynamic team, where I can support impactful IT operations and continue to grow as a technical professional.

I recently completed an industrial attachment at the Ministry of Public Service (Huduma Kenya - Laikipia), where I served as an IT Support Assistant. During this period, I gained hands-on experience in network deployment, database administration, identity and access management, digital payment gateway processing, and electronic health record (EHR) system administration.

My most significant accomplishment during my three-month tenure was successfully bridging the gap between back-end IT operations and day-to-day office workflows. I conducted face-to-face training sessions to guide desk staff on new digital workflow processes, effectively transitioning them from paper-based to electronic systems. This initiative not only significantly increased their processing efficiency but also empowered the administrative staff to become more technologically self-reliant. This practical exposure solidified my technical proficiency in software deployment and information systems management, while also teaching me how to adapt quickly and deliver results in a fast-paced professional environment.

Beyond my hands-on experience, my academic background at Nairobi National Polytechnic has equipped me with a strong analytical mindset and a deep understanding of system analysis and design. I pride myself on my technical communication skills and my ability to collaborate effectively within a team.

I am confident that my proven ability to learn quickly, coupled with the real-world skills I developed during my attachment, makes me a strong candidate for this internship. I have attached my resume, which provides further details on my background and technical proficiencies. Thank you for your time and consideration.

Sincerely,

Bernard Victor Muthomi
