SUMMARY

Dedicated ICT professional completing an industrial attachment, bringing practical expertise in network troubleshooting, database administration, and full-stack development. Seeking to apply a diverse technical skill set to solve complex, real-world problems in a junior IT or software engineering position.

PROJECTS AND TECHNICAL INITIATIVES

Dawa Mashinani - Offline Ready Health Ecosystem - University of Nairobi April - June 2026 Nairobi, Kenya

Designed an offline-first mobile health ecosystem concept tailored to bridge healthcare access gaps in rural Kenyan communities

Online SBA System & Digital Transition - Ministry of Public Service. Jan - May 2026 Nanyuki, Kenya

Managed an online SBA system at Huduma Kenya, conducting staff training that transitioned workflows from paper to digital. This improved efficiency and empowered staff to work independently with technology.

KITI File Shield - Cybersecurity Utility - University of Nairobi Jan - March 2026 Nairobi, Kenya

Developed a focused cybersecurity tool designed to detect and mitigate extension spoofing through binary-level file verification.

Sheria Yangu - USSD Civic Education Platform - Africa's Talking March 2026 Nairobi, Kenya

Developed a USSD-first constitutional literacy backend for feature phones, enabling low-bandwidth access to rights information

QejaYetu - SMS Accommodation Platform - Africa's Talking April 2026 Nairobi, Kenya

Developed an accommodation platform integrating Google Maps for property discovery and Africa's Talking APIs for automated SMS communication

HerVoice - Wellness and Safety Assistant - African Impact (AIC) Dec - Feb 2026 Nairobi, Kenya

Architected a digital companion aimed at supporting women's safety and emotional well-being in urban environments like Nairobi.

EDUCATION AND EXPERIENCE

ICT Attachee | Ministry of Public Service | Nanyuki, Kenya | Jan 2026 – May 2026

Diploma in Information Communication Technology | The Nairobi National Polytechnic | Nairobi, Kenya Sep 2023 – Current
