EDUCATION AND EXPERIENCE

IT Support Assistant | Ministry of Public Service | Nanyuki, Kenya | Jan 2026 – May 2026

- Provided frontline technical support and administration for Electronic Health Record (EHR) databases, ensuring high availability and data integrity.
- Troubleshoot and maintained digital payment gateway systems, resolving transaction errors to minimize downtime in public service delivery.
- Administered identity and access management (IAM) protocols, ensuring secure authentication and seamless onboarding for government staff.

Diploma in Information Communication Technology | The Nairobi National Polytechnic | Nairobi, Kenya Sep 2023 – Current

PROJECTS AND TECHNICAL INITIATIVES

Dawa Mashinani - Offline Ready Health Ecosystem - University of Nairobi. April - June 2026 Nairobi, Kenya

Bypassed traditional infrastructure barriers by architecting a USSD-based health platform backed by a Python and MySQL architecture, reducing the time required for rural patient triage by 66%.

Online SBA System & Digital Transition - Ministry of Public Service. Jan - May 2026 Nanyuki, Kenya

Managed the online SBA platform and facilitated comprehensive staff training, successfully driving the transition from manual to digital workflows and increasing user autonomy.

KITI File Shield - Cybersecurity Utility - University of Nairobi. Jan - March 2026 Nairobi, Kenya

Strengthened endpoint security by developing a computer vision-driven binary verification tool using Python and OpenCV, achieving a 96% success rate in detecting and mitigating extension-spoofing malware.

Sheria Yangu - USSD Civic Education Platform - Africa's Talking. March 2026 Nairobi, Kenya

Developed a USSD-first constitutional literacy backend for feature phones, enabling low-bandwidth access to rights information

QejaYetu - SMS Accommodation Platform - Africa's Talking. April 2026 Nairobi, Kenya

Optimized the spatial accommodation search process by integrating Google Maps and SMS automation, reducing property discovery friction and increasing user engagement by 84%

HerVoice - Wellness and Safety Assistant - African Impact (AIC). Dec - Feb 2026 Nairobi, Kenya

Scaled a Vercel-hosted digital companion for community safety, utilizing PyTorch-based emotional language processing to increase the accessibility of AI-assisted reporting by 60%.
